Content Guidelines for Posts on MLML Website

Goal: To outline desired content and format of different types of posts

Target Audience: Front Desk, Social Media, IT, WAG

Review: No formal review of posts → please proofread carefully

Types of posts covered:

- **Press coverage**
 - Posted by Front Desk or Social Media
 - **Events**
 - Posted by Front Desk
 - **Public seminars**
 - Posted by Front Desk or HelpDesk
 - **Defense seminars**
 - Posted by Front Desk
-

Content Guidelines

- Use an existing post or a post template from the [WordPress Resources webpage](#)
 - To learn how to use an existing post or template follow these [instructions](#)
- Writing for the general public, not MLML community
- [5 Tips for Creating Posts](#)

All posts must follow these guidelines:

- Have a **minimum of one photo** (make sure you have permission)
 - If a photo is not provided use:
 - A photo of the speaker or MLML personnel involved
 - A picture of the journal the article is published in
 - Relevant embedded video is encouraged
- **Set a "featured image"**
- **Add links** where possible
 - Hyperlink all MLML personnel to their pages on the website
 - If you mention a lab, hyperlink to that lab
 - Hyperlink to original article if appropriate

- **Add tags:** faculty names, subject matter, MLML lab, etc.
- **Change the url ending** (default is title of post with dashes)
 - E.g. for a seminar speaker, you can change the url to be firstname-lastname-seminar

Additional guidelines based off type of Post:

Press/Achievement posts:

- **Catchy title** relevant to article or achievement
 - Good → MLML professor creates only land based seaweed business in the USA
 - Bad → MLML's new aquaculture facility in The Californian
- **Catchy one-line description** that can be on front page with links to key player and/or article
- **Summary of article** (150-250 words)
 - Provide some details about the article or achievement
 - Provide information so the general public can understand even if they do not click on the article link
 - Include links to labs and faculty involved
 - Properly cite source material

Example:

Dr. Michael Graham's land-based seaweed farm is in high demand

February 27, 2019 Mina Sattari

MLML's Dr. Michael Graham has been earning some well-deserved attention for his innovative land-based seaweed farm. Monterey Bay Seaweeds provides seaweed for many high-end restaurants in the area. Chefs and foodies alike are raving about the seaweed grown at the farm. An article by the "Grub Hunter," Mike Hale in the Monterey Bay Herald dives in to what makes this seaweed so special.

Excerpt:

"The original idea was to see how our family could maybe do some seaweed farming," said Graham. "We ran into a few hurdles and eventually built a market that never existed — edible seaweed delivered live and raw, in seawater, not modified in any way, fresh out of the ocean."

Chef Justin Cogley from Carmel's Aubergine, arguably the finest restaurant on the Peninsula, has Graham on speed dial.

"We use ogo, dulse, sea lettuce ... anything else he finds or grows," Cogley said. "To work with Dr. G, who is the foremost authority on seaweed, has helped us have a consistent product."

To read more, you can find the article [here](#)

Event Posts:

- Title should be in the following format:
 - **"Title of Talk/Event - Month DD, YYYY"**
- Add post to **"Upcoming Events" category**
 - After the event, change the category to **"Events"**

Example:

Moss Landing Street Fair-July 28

📅 June 14, 2019 👤 Mina Sattari

Moss Landing Marine Labs looks forward to being a part of the annual Moss Landing Street Fair in July! This year the Street Fair will have an Education Center. We hope you can visit the fair and visit our table too. Thank you to the Moss Landing Chamber of Commerce for inviting Moss Landing Marine Labs to share our research with the community.

Event Date:

July 28th, 2019 from 8:00 am to 5:00 pm

Location:

Moss Landing Road

📁 Events ✎ Edit

Seminar Posts:

- The Visiting Scientist collects information about the speakers and adds them to a [google sheet schedule](#) and a [google drive folder](#)
- Use previous Seminar posts as a template
- Content to include
 - **Talk title** is title of post: "Title of Talk - Month DD"
 - **At the top of each page include:**
 - Presenter name, position title, university or institution affiliation
 - Moss Landing Marine Labs Seminar Series - Month DD, YYYY
 - Hosted by the xxx Lab (link this to the lab's webpage)
 - MLML Seminar Room, 4pm
 - (or Watch it Live [here!](#)) <- only if they agree to be publicly streamed
 - Open to the public
 - ~More info coming soon!~ (until you receive the abstract and more info)
 - **Brief talk abstract** (~100-200 words)
 - **Link to speakers website**
 - **DO NOT include post date** (confusing with two dates)

- Put post in "**Upcoming Seminars**" category
 - After seminar, change the category to "**Seminars**"
 - Create the last seminar's post first - this way they display in chronological order

Example:

KELPRR: Guiding kelp restoration actions in Northern California through multidisciplinary science and community engagement-March 28th

January 22, 2019 Mina Sattari

Cynthia Catton, CA Fish & Wildlife

Moss Landing Marine Labs Seminar Series - March 28th, 2019

Hosted by [The Ichthyology Lab](#)

MLML Seminar Room, 4pm

Open to the public

Dr. Cynthia Catton has studied kelp forest ecosystems, including important marine invertebrate fishery species and climate-change impacts, for over 15 years in California. She received a BS in Marine Biology from the University of Washington, and a PhD in Marine Biology from Scripps Institution of Oceanography. She is an Environmental Scientist with the California Department of Fish and Wildlife and a Research Associate at the UC Davis Bodega Marine Laboratory.

Dr. Catton will be talking about her current work to form a strong institutional and community-engaged collaborative research program (KELPRR) to support kelp forest restoration in northern California.

Thesis Defense posts:

- Front desk will request talk title, abstract, and photos 2-3 weeks before a thesis defense
- Content to include:
 - **Post title:** "Thesis Defense by [NAME] - Month DD"
 - **At the top of each page include:**
 - Talk title
 - Presenter name
 - Lab affiliation (link to lab's webpage)
 - Date and Time
 - MLML Seminar Room
 - (or Watch it Live [here!](#)) <- only if they agree to be publicly streamed
 - ~More info coming soon!~ (until you receive the abstract and more info)
 - **Brief talk abstract** (~100-200 words)
 - **DO NOT include post date** (confusing with 2 dates)

- Put post in "**Upcoming Thesis Defenses**" category
 - After defense, add to "**Thesis Defenses**" category
- Note: having a website post is not a requirement; the students are busy and likely stressed about the talk, so don't bombard them with emails to send info.

Example:

Thesis Defense by Melissa Nehmans-March 29th

March 27, 2019 Mina Sattari

The Life History of *Etmopterus granulosus*, the Southern Lantern Shark, from the Southwestern Indian Ocean

A Thesis Defense by Melissa Nehmens

Pacific Shark Research Center

Friday, March 29th, 2019 at 4 pm

MLML Seminar Room

Thesis Defenses melissa nehmans, PSRC, thesis defense Edit

How to Become a WordPress Admin

Submit an IT Helpdesk Ticket

- First you must submit an IT Helpdesk Ticket with IT and give them the following information:
 - What website you want to become a WordPress Admin for
 - What your goal or plan is for the website
 - Your availability for a WordPress Training Session

Attend a WordPress Training Session

- IT will be holding WordPress training sessions that go into detail how to use WordPress effectively and responsibly
- **All who would like to become a WordPress admin must attend a training session**

How to Login

- To login to your website use the following URL - input your website's name where it says "yoursite":
 - mlml.sjsu.edu/yoursite/admin
 - Use your MLML username and password when the login pop-ups
- You may also login using intranet
 - Navigate to intranet > login with your MLML username and password
 - Now navigate to your site using your site's URL
 - e.g., <https://mlml.sjsu.edu/yoursite/>

Now visit our [Getting Started with WordPress](#) page for information on how to start creating an awesome website!

Wordpress Posts and Pages

Best Practices and Policies

Summary

- Posts are to capture a point in time (such as an event).
 - Pages are for regular website content
 - Always use Page Builder to create all types of content--makes it easier!
-

Posts

Capturing a point in time - content will not be updated over time

- **Content Type:**
 - News
 - Blogs
 - Events
- **Editor/Admin Roles:**
 - Contributors - Can create posts which will then be moderated
 - Authors - Can create, edit, and publish their own posts only
 - Editors and Admins - Can create, edit, and publish any posts
- **Authorization** for certain webpages should be obtained by the corresponding admins:
 - Main MLML website - Approved by Ivano or Jim
 - Tier 1 sites - Approved by website owners
 - Tier 2 & 3 sites - Approved by website owners or web admins (as website owner decides)
- **General Info:**
 - Posts are displayed by the order of when they were created.
 - *You can change the post date to make sure that events stay in order--**please do this!***
 - Content Guidelines for Posts (Press Highlights and Events)

Pages

Content not tied to a specific date - may be updated over time

- **Content Type:**
 - About page
 - Project pages
 - Bio pages
- **Editor/Admin Roles:**
 - Editors and Admins - Can create, edit, and publish
- **Authorization** for certain webpages should be obtained by the corresponding admins:
 - Main website - IT Helpdesk Ticket
 - Tier 1 sites - IT Helpdesk Ticket
 - Tier 2 & 3 sites - Website owners and web admins
- **Reviewing Process:**
 - Main website - IT Helpdesk Ticket > WAG review > approval > page updated
 - Tier 1 sites - IT Helpdesk Ticket > WAG review > approval > page updated
 - Tier 2 & 3 sites - Approved by website owners and web admins
- **Getting Started:**
 - Page Templates - Use these pre-made templates to outline the layout of your page
 - Need help using them? Go to How to use Page Templates

Widget Recommendations:

For more information on the different widgets available: Third-Party Plugins

Page layout:

- Use **Page Builder** for every Page and Post created, even the simplest posts and pages
 - Organize with rows and columns
 - Copy and paste rows and widgets

Text:

- SiteOrigin Editor widget
- Headline Widget

Images: (Image Use Guidelines)

- SiteOrigin Editor widget
- FooGallery - use shortcode in Custom HTML widget
 - SiteOrigin Image widget
 - Inline with text wrap around

- Photo gallery/slideshow
- Single image

WordPress Menu Best Practices and Policies

Summary

- **Use Mega Menu (under Appearance)**
- Keep menu item names concise
- Keep formatting consistent
- WordPress Support: [Custom Menus](#)
- For more in-depth reading, visit our [Third Party Plugin Documentation](#) page and click on Max Mega Menu.

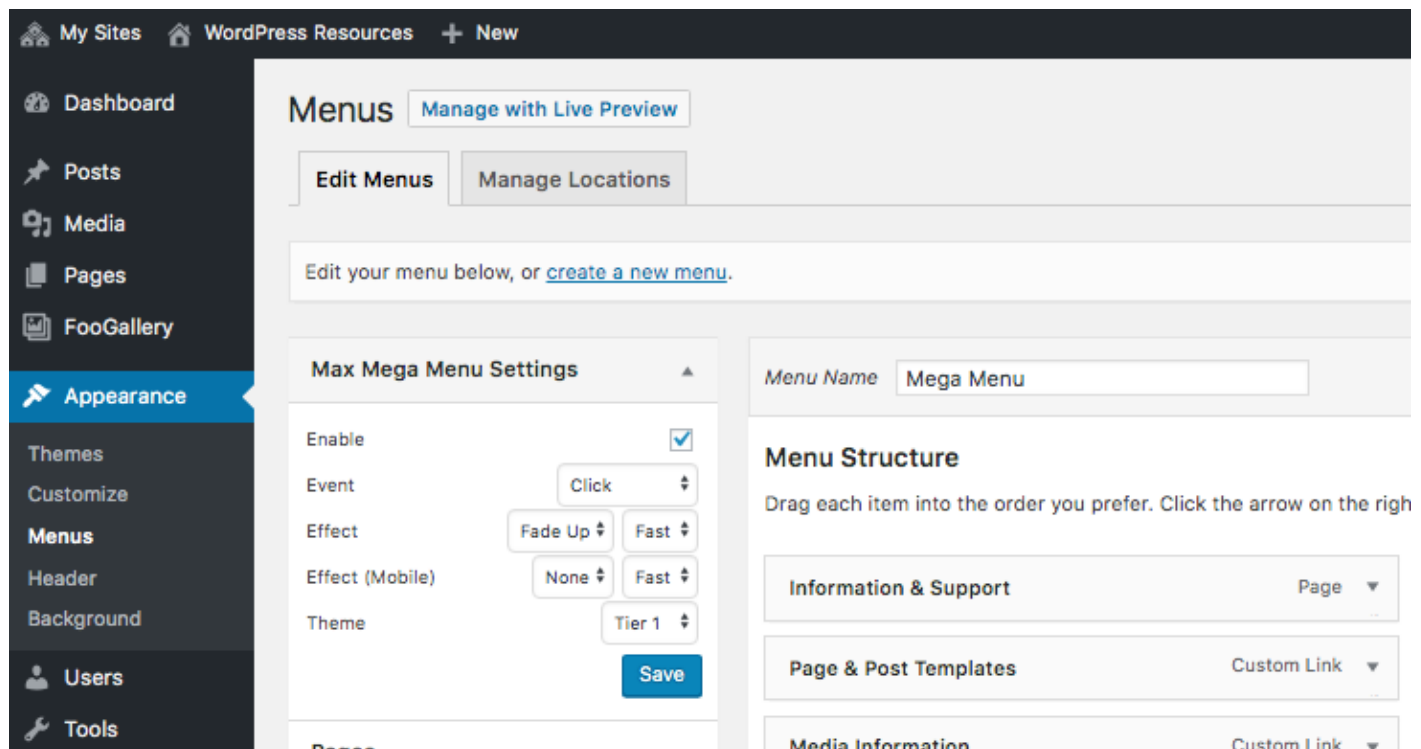

Instructions

- Navigate to your menu: **Dashboard > Appearance > Menus**
- Create a new Menu
- Select a menu to edit: **Mega Menu (Primary Menu)**
- To add categories use the Pages, Posts, Custom Links, and Categories tabs listed on the left side of screen
 - If you'd like to directly link to one of the above that you've already created (i.e., a post or page) you can do so using those tabs
 - If you'd like to **create a drop down category use the Custom Links** option
 - For URL insert mlml.sjsu.edu - you can **delete the URL link once it's added to the menu**
 - Insert desired title of category in **Link Text**
 - Add to Menu
 - Click drop down arrow on newly created category and delete the URL linked
- For **Drop Down Menus where you'd like to add subcategories** with links or links to other pages:
 - Hover over the main menu category you'd like to create a drop down for
 - Select **Mega Menu button** that appears in blue
 - For "Sub menu display mode" choose "**Mega Menu - Standard Layout**"
 - Select a Widget to add to the panel: "**Layout Builder**"
 - 2 columns
- To edit the Layout Builder in drop down menu:
 - Select the **wrench** on the right hand side of Layout Builder widget

- Select **Open Builder**
- Add desired number of rows with desired number of columns
 - The number of columns can be useful to place subcategories directly under the portion of the drop down menu that you want (i.e., more towards the right side of the menu, left side or middle)
- Add a **SiteOrigin Editor** widget to make a list of Pages that you'd like to link to

Visual Instructions

Appearance > Menus > Mega Menu (Primary Menu)

Hover over the menu you want to modify and click the blue Mega Menu icon:

Menu Structure

Drag each item into the order you prefer. Click the arrow on the right of 1

Use Layout Builder. Click the Wrench icon on the right to edit

Open Builder:

Here you have the standard Page Builder interface where you can add rows, columns, and widgets to create menu items.

5 Tips for Creating WordPress Posts

Posts on the MLML website are meant to be a brief, but intriguing introduction to an event or article affiliated with the labs. It is important that they look nice and give enough information that someone reading can understand the article or event without clicking on further links.

1. Include Pictures and Make Them Interactive

Always include at least one picture when creating a post (the more the better). Make your photos interactive when possible. At the very least, enable [Lightbox](#) for the photos you include in your post. Give photos descriptive captions. Templates on different ways to display captions are available under the Media Information section of the [WordPress Resources](#) website. You can also have your photo link to another website by assigning it a **Destination URL**.

When posting a photo always ensure you have permission to use the photo and give credit as best you can. Click [here](#) to learn more about MLML's image use guidelines.

2. Format Text for a Clean Appearance

Something as simple as setting a paragraph of text to align center (ctrl+alt+c) or justify (ctrl+alt+j) can greatly improve the aesthetics of your post.

Example:

Default alignment (align left):

Moss Landing Marine Laboratories is a complex institution that provides curriculum and an M.S. degree in Marine Science as a consortium of 7 different California State Universities (CSU). There are tenure-track faculty, independent researchers, and technicians conducting research projects across the globe. Funding comes from CSU, San José State University (SJSU), the other consortium campuses, the SJSU Research Foundation, and donors via the SJSU Tower Foundation. These annual reports provide an overview of the goals and accomplishments of Moss Landing Marine Laboratories during the academic year and summarize the breadth of activities.

Text Justified:

Moss Landing Marine Laboratories is a complex institution that provides curriculum and an M.S. degree in Marine Science as a consortium of 7 different California State Universities (CSU). There are tenure-track faculty, independent researchers, and technicians conducting research projects across the globe. Funding comes from CSU, San José State University (SJSU), the other consortium campuses, the SJSU Research Foundation, and donors via the SJSU Tower Foundation. These annual reports provide an overview of the goals and accomplishments of Moss Landing Marine Laboratories during the academic year and summarize the breadth of activities.

3. Incorporate Quotes

When creating a post about an article, include relevant quotes directly from the article using blockquote in WordPress.

Blockquote is dictated by an open quotation mark in the WordPress Toolbar.

Blockquote makes quotes stand out from the body of the text. For example:

Students in the Spring Aquaculture class at Moss Landing Marine Labs worked together to test whether sea urchins removed from barrens could be used for food. The class was led by California Sea Grant Extension Specialist [Luke Gardner](#) and the diet-experiment lasted 10 weeks. The class built the culture system from the ground up and got an unforgettable hands-on learning experience.

"This class experiment gave a group of novice aquaculturists a chance to raise marine organisms and demonstrate how aquaculture can benefit nearshore ecosystems," wrote Helaina Lindsey in her blog post on California Sea Grant's website regarding the experiment.

To learn more, you can read Helaina's full article [here](#).

4. Set Hyperlinks to Open in a New Tab

This is especially important if a link directs you to an outside website. It allows the viewer to easily navigate back to MLML's website.

To set a hyperlink to open in a new tab:

1. Click **Link Options**

I can read Helaina's full article [here.](#)

ium=email&utm_campaign=shoreline_JULY19

2. Check **Open Link in a New Tab**

Insert/edit link ×

Enter the destination URL

URL

5. Use a Previous Post as a Template

When in doubt, finding a post that you think looks nice and copying it as a template is a simple way to create a great post. There are also a host of templates on the [WordPress Website](#).

If you want further help creating a post, feel free to drop by the **IT Help Desk** in the main office or submit an [IT Helpdesk Ticket](#).
