WordPress Website Support Guidelines

The purpose of this page is to guide you through the process of getting help with your WordPress website.

1. Check out the WordPress FAQ's
2. Use resources from our Getting Started with WordPress page
3. Learn how to become a WordPress Admin
4. Browse our WordPress Resource Website
5. Put in a Help Desk ticket
    - If you did not find an answer using the available resources then put in an Help Desk ticket.
        - Include in the ticket, a description of what you are trying to do and where in wordpress you are trying to do this. Also be sure to include the **URL** of the specific wordpress page on which you are working.
