Retrieve Email from your Other Email Accounts using Gmail

Configure your gmail account to **retrieve email** from your other email accounts:

If the email account you want to retrieve email from is a gmail account, you will need to enable POP on that gmail account. See **Configure Forwarding in Gmail** to forward your emails from another gmail account.

- If necessary, enable POP on the gmail account ***FROM*** which you want to retrieve email.
  - Instructions for enabling POP on your gmail account are available from Google here: **Read Gmail messages on other email clients using POP**.
- To retrieve emails from another account to your Gmail, see Google's help page: **Check emails from other accounts**.
  - Then, follow the instructions under the "**Get all messages**" section. To import old archived emails, see the "**Get only old messages**" section.

See the page **Fix problems importing mail** for troubleshooting issues.
